

C A M B R I A[®]

Hospital and Medical Office Approved Cleaners Statement

Thank you for your request for additional information regarding the care of Cambria. Maintaining Cambria is easy. Simply wash with a soft cotton cloth and warm water, use a mild soap if desired.

DO NOT use abrasive or strong alkaline or acid (high or low pH) cleaners. DO NOT use or expose Cambria to bleach, oven cleaners, Comet[®], Soft Scrub[®], SOS[®], products with pumice, batteries, paint removers, furniture strippers, tarnish or silver cleaners. DO NOT use abrasive or harsh scrub pads. DO NOT apply any sealers, penetrants or topical treatments to Cambria under any circumstances. Such products will wear off and cause the gloss to appear dull or inconsistent. Contact Cambria for further information by calling 1-866-Cambria or visiting our website at CambriaUSA.com.

If you have dried spills in a hospital or medical office setting and desire to use a cleaner, Cambria recommends you use one of the following products:

- NABC Non-Acid Disinfectant Bathroom Cleaner
- Liquid Timsen Disinfectant –Virucide-Food Contact Sanitizer
- Zap - Detergent, Cleaner, Sanitizer, Fungicide, Mildewstat, Disinfectant, Deodorizer, Virucide
- DMQ Damp Mop Neutral Disinfectant Cleaner
- Viraguard Hospital Surface Disinfectant Towelette
- Envirocide Surface Disinfectant Decontaminant Cleaner
- Viraguard Hospital Disinfectant Cleaner & Instrument Presoak
- Clorox Pro Quaternary All Purpose Disinfectant Cleaner
- Enzyme Industries Blood Buster
- PDI Super Sani-Cloth Germicidal Disposable Wipes

DO NOT select a variation of the product listed above, as most brands have multiple variations of product types; some variations may include chemicals or additives that could damage Cambria.

Additional information:

Desert collection designs may require more frequent attention from finger prints or other spills.
